

FIMRC: What Makes Us Different?

Grassroots

FIMRC is a true grassroots NGO. Before beginning a new project site, we consult the community to make sure they are as invested as we are. We want their participation in improving the health conditions rather than implementing what we think is best.

ALL. YEAR. ROUND.

FIMRC is committed to the community once it opens a project site. We integrate ourselves as a part of the community, rather than thinking of ourselves as outsiders coming to help. Therefore our clinical and health education never stops, but is always present.

Sustainable

Because FIMRC is open all year round at our project sites, we must ensure that our operations can continue even without volunteers present. We have full time staff at each project site, and our volunteer program helps to sustain FIMRC's operations throughout the year.
